CENTRAL INTELLIGENCE GROUP INTELLIGENCE REPORT

COUNTRY Germany/Russian Zone

DATE: 50X1-HUM

SUBJECT Miscellaneous Notes on V-Weapon Production

DIST. 7 November 1946

PAGES

SUPPLEMENT

50X1-HUM

ORIGIN

STATE	WAR	NAVY	AIR FORCE
-------	-----	------	-----------

It is stated that no V-weapons are being produced in or near Ostrow (Mecklenburg).

2. August-September 1946

50X1-HUM

pruchasers are sent by the "Rabe Institute" in Meicherode into the U.S. and British Zones in order to buy material needed for V-2 production, such as tools and instruments used in the jet field. These men do not act as representatives of the Rabe Institute but are using firm cover names.

3. Work for V-2 production is also being done by the "Montania" in Nordhausen. It includes mainly production of tools needed for rocket production and instruments for voltage measuring.

4. 14 September 1946

50X1-HUM

The V-2 installations in Blankenstein (Thuringia) have been dismantled by the Russians.

5. 6 September 1946

50X1-HUM

The locomotive factory (*) in Nordhausen, has been dismantled entirely with the exception of machines which might serve for the production of V-weapons. These machines are now being used for that purpose.

6. 17 September 1946

50X1-HUM

It is stated that the Zeiss-Ikon Werke in Dresden is producing V-2 parts.

Comment: This most likely refers to the "Montania", (see para. 3) a railroad equipment factory formerly owned by Orenstein & Koppel.)
